The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

Isn't the first responsibility of Cal Fed
to coordinate a plan that will assure a
secure and consistently supply of high quality
water to the ever growing population of
California. Wildlife and humans are the
population of California. What benefits them
both will be good for all - We must have
storage and high producing farmland to meet future
needs of both.
